Welcome to the directory of players in the Lexington startup community. Lexingtonians have a lot to offer - find someone who's offering what you're looking for.

*To note - this is the first version of this directory. We know we've missed people and we're asking our community to help us add everyone who should be here!*

The only two qualifications we have are:
- They are in the Lexington region.
- They are able and willing to add value to entrepreneurs.

Please send your suggestions using the Google Form linked here and we will reach out to them.
HOW TO USE THE YEARBOOK

All names and LinkedIn icons are hyperlinked, just click and go!

Need to find something specific? Use command+f to search.

Utilize our tags and categories on each profile to see what that player’s strengths are.

Ben Self is a pioneer in the Lexington community as he was one of the first to establish a craft brewery in the area - West Sixth Brewing. Originally from Lexington, Ben was an experienced entrepreneur before starting West Sixth. For 6 years, he built and ran a digital strategy and technology company called Blue State Digital that worked for Barack Obama’s 2008 and 2012 election campaigns among other clients. Currently, Ben is serving as the Chairman of the Kentucky Democratic Party and works hard to make Kentucky a better place to live and work.

When he’s not working, Ben enjoys traveling with his family and spending time with his children.

Brian Evans is a small business owner and entrepreneur located in Lexington, KY. He is the author of two business books and co-author of three Amazon best-selling books. He has started multiple successful businesses and invested in dozens of local startups privately and as an angel investor with the Bluegrass Angels. In 2015 Brian was awarded the Marketer of the Year by the Profit Coalition, a private group of global business owners and entrepreneurs. Brian regularly works with and consults for many local and national clients on digital marketing, media production, and real estate investing. Brian was appointed by the KY Governor in 2018 as a Board Member of KEMI (Kentucky Employers Mutual Insurance Company) and is also the Chairman of the Marketing Committee.

Brian is also very active within the Freemason Fraternity as an educator and occasional speaker. He is the Past Master of Lexington Lodge No. 1 for 2020 and 2021, Chairman of the Rubicon Masonic Society, and member of the William O. Ware Lodge of Research.

When he’s not working, Brian enjoys spending time with his wife and two children.

Brian is a Lexington native and an incredibly active Kentucky entrepreneur. After starting a successful options trading company in Chicago, Brian returned to Lexington and started American Farm Investors, a full-service farmland investment company that produces corn and wheat for the Kentucky Bourbon industry. He is also part of the Bluegrass Angels leadership group and sits on the board for multiple Kentucky startups, ranging from the bourbon industry to management software.

Brian's vision for Lexington is for the city to become synonymous with startups and entrepreneurship. He would also like to see Lexington boast more opportunities for graduates to want to start a career in Lexington. Brian believes that the startup community in Lexington is one of its biggest assets and he stays very involved in all aspects.

Brian Raney has been an advocate for the Lexington startup community since stepping foot on campus at UK. While in college, Brian started several companies and organizations with varying degrees of success. One of his first companies was a company called BookExchange which provided a solution for the monopoly that the campus bookstore had to buy and sell textbooks. Brian started the “company” at UK and was able to expand it to several different campuses. After graduating with a degree in Computer Science, Brian went on to start APAX Software, a custom software development company. This company recently became an INC 5000 company. He later started Awesome Inc with several of his college friends and has used Awesome Inc as a means to impact countless lives in the Lexington community and beyond. Brian also launched the Cherub Fund to invest in early stage companies.

When Brian is not working, he enjoys snowboarding, surfing, playing soccer, and traveling with his friends and family.

Bryce Anderson is a successful Lexington entrepreneur who is responsible for recognizable local brands such as Vinaigrette and Breakout Games. Originally from Lexington, he started his entrepreneurial journey by starting a car detailing business while he was in high school. After going to college in Washington D.C. for IT Consulting, Bryce returned to Kentucky to open the first Orange Leaf franchise in Lexington with his friends. He believes that Lexington’s culture of common success and willingness to help others succeed are what makes Lexington special. Bryce stays involved in the community through Awesome Inc and staying involved at his church, Hope Presbyterian. When not working, he enjoys playing tennis, biking, and exploring Lexington’s art and music scene.

Craig Avery is President of Avery Consulting, Founder of 210 Leaders, and an Elder at Southland Christian Church. Craig got his start at the Fuller, Mossbarger, Scott, & May Engineering Firm, where he quickly became a partner after joining the firm as a new graduate of UK. After the firm was successfully sold, Craig began to pursue his true passion of missionary work through teaching business & entrepreneurship in underdeveloped countries. He is also a member and investor in the Keiretsu Form, a global investment community of accredited private equity angel investors, venture capitalists and corporate/institutional investors.

When Craig is not pursuing one of his passion projections, he enjoys cycling, mentoring the next generation of business leaders, and creating community within the church.

Drew Sutton

Drew is a dedicated and engaged member of Lexington’s startup community and can often be found providing business strategy coaching via his company, Barksdale Rutherford. One of Drew’s biggest strengths is real world business strategy and how to implement it for real companies. Drew’s day job is Senior Engineer at Lockheed Martin, where he has assisted in developing 33 patents. He sees Lexington’s community and cost of living as being it’s biggest assets, and the lack of young talent as it’s biggest drawback.

Drew enjoys helping his kids build custom 3D printed Nerf guns in his free time.

Eric is the associate director, New Ventures, for the Office of Technology Commercialization (OTC), where works with startups and entrepreneurs. Prior to joining the University of Kentucky, Eric served as program director for the Kentucky SBIR/STTR Matching Funds Program at Kentucky Science and Technology Corporation. Eric graduated from the University of Kentucky in 1997 with a BS in Electrical and Electronics Engineering and in 2000 with a MS in Biomedical Engineering. He co-founded customKYnetics, Inc. in 2000, a medical device startup company developing novel rehabilitation technologies for the physical therapy market.

Eric is working diligently to build the startup community in Lexington. He works daily with entrepreneurs and investors and serves as one of the top connectors in the city. Eric helps organize events such as SPARK meetups, Startup Breakfast, Lexington Entrepreneurship Day, and Global Entrepreneurship Week. He also works with the Bluegrass Angels and helps prepare companies for pitches to angel investors within the group.

Eric is from Columbus, OH and believes that if you’re not 10 minutes early then you are (most likely) late.

Gina Greathouse

Gina is a native of Franklin County and has been working in the field of economic development for over 30 years. Doing economic development for the Bluegrass since April of 1995, she is currently the Executive Vice President for Economic Development and is responsible for Commerce Lexington’s economic development mission. Prior to her current appointment, she was employed by the Kentucky Cabinet for Economic Development from 1990 to 1995. She has traveled throughout the state, country and internationally working to recruit companies to Kentucky and the Bluegrass Region. A resident of Fayette County, Gina graduated from the University of Kentucky’s College of Business and Economics with high departmental honors in 1988. Gina has served the community in several capacities throughout her career. Most notably, she is co-chair for Central Kentucky’s Bluegrass Alliance. She currently sits on the boards of LexArts, the Business and Education Network and the World Trade Center of Kentucky, and the Kentucky Association for Economic Development. She is a member of the Kentucky Association for Economic Development; Member of the Japan America Society of Kentucky; member of the International Economic Development Council. Born in Pikeville, KY in 1974 Justin grew up in the hills of eastern Kentucky. He graduated from Elkhorn City High School in 1993 and Pikeville College (now UPike) in the summer of 1997. Shortly after graduating from UPike, Hall discovered an interest in technology, specifically web related technologies and programming. In 2000, while recovering from back surgery and unemployed, Hall taught himself how to code.

For the next 19 years Hall worked with Fortune 500 companies, non-for-profit organizations, consulting firms, Ad agencies, and small to medium sized businesses throughout the United States, Canada, and Sweden. He worked with companies associated with kitchen and bath, coal, health and wellness, and sports industries, as well as, military and government sectors. He continues to work in the field of software development. In 2017, Hall was one of Fast Company’s 100 Most Creative People in Business for helping start Bit Source, a company located in eastern Kentucky that employs former coal miners as coders.

Koby Hastings is the Founder & CEO of Leadrilla, a self-serve lead generation platform for individual sales agents. Koby started his entrepreneurial career with his first business building web applications at 16 years old in Louisville, KY. After earning his Computer Science degree at Eastern Kentucky University in 2015, Koby became highly involved in the blockchain tech industry working as the lead engineer for a well-funded startup. In 2017, Koby started a blockchain development firm serving several large banks and corporates in the US, Asia, and Europe. In 2018, Koby and his team realized that individual sales agents did not have access to the performance marketing industry like a large carrier or agency had, so they began building Leadrilla with the goal of bringing the entire industry to the fingertips of agents in a simple and easy to use platform. Leadrilla is headquartered in Lexington, KY and services over 10,000 agents throughout the US.

In Koby’s free time, he enjoys playing golf when he can, and hanging out with his wife (Shelby) and two daughters (River & Harlie).

Liz Brown Evans is an engaged networker and one of Lexington’s biggest fans. After going to Wheaton College in Chicago, she moved to New York City to pursue a career in sales and found her place working for Carters, Inc. After 3 years in New York, she was asked to join Old World Timber in Lexington to help build their sales processes. She currently is a Partner at Innovation Incubated, Awesome Inc's corporate innovation consulting program, while also managing the marketing team at Awesome Inc.

On the side, she maintains her top customers at Old World Timber, volunteers in her church’s youth group, and sits on the Economic Development Investment Board for the city.

When she’s not working, Liz enjoys running, gardening, visiting at least one national park per year, and spending time with her husband, Eric, and their dog, Titus.

Logan Jones is originally from Ashland, Kentucky and has a passion for seeing the Commonwealth excel and grow. After graduating with a degree in Finance and Marketing at UK, he joined the Awesome Inc team as Project Coordinator, working to grow the startup community while also taking on various process and space improvement projects. During his time at UK, Logan started KY Elevated Drone Imaging to teach himself the processes that go into starting a business and he still serves as the President and Head Pilot of his company. As a result of his passion for entrepreneurship and Kentucky, Logan joined the Middle Tech Podcast to help highlight the stories and people that make up the vibrant startup community of Kentucky and surrounding areas.

When Logan isn’t working, he enjoys spending time at Cave Run Lake, skiing, playing guitar, and enjoying the Lexington nightlife scene with his friends.

Luke Murray is a man that is known to wear many different hats. From cofounder of Awesome Inc, to doctor, to pilot, he keeps himself busy by going and doing. While attending college at UK, Luke became close friends with Brian Raney through BookExchange, and the two went on to build Awesome Inc together. Today, most of Luke’s time is spent in Pikeville, Kentucky where he serves as a Hospitalist for the Pikeville Medical Center. Recently, he decided to get his pilot’s license to make his commute from Lexington to Pikeville a bit easier. In 2020, Dr. Murray headed up the COVID department of a Lexington startup named Wild Health. That project grew to over 900 employees, who eventually did not all fit into Awesome Inc. Luckily, the adjacent Porter Paints building was open, so Wild Health and Awesome Inc have been neighbors ever since.

On top of Luke’s many professions, he also has many hobbies and interests including snowboarding, wakeboarding, playing guitar, surfing, and traveling.

Morgan is one of the most engaged members in Lexington’s startup community. While his primary profession is real estate, he chose to put his company’s office in Awesome Inc in order to stay involved in the startup scene. Originally from Lexington, Morgan attended the University of Kentucky, moved away to pursue a career in finance, and then came back to Lexington once he was ready to start a family. His current company is Atlas Trust Real Estate, and Morgan himself is in the top 1% of realtors in the country. Morgan specializes in social media marketing and is an expert at navigating the ins and outs of Facebook ads. He enjoys spending time with his kids, golfing, boating, and working on his side hustles in his free time.

Nick Such is a cofounder of Awesome Inc where he works closely with early stage startups and is the Director of Awesome Inc’s Coding School. He has been involved in several different entrepreneurial ventures, ranging from indoor mapping software to early touchscreen technology. Nick enjoys engaging with the entrepreneurial community through events such as 5 Across and Startup Weekend. He considers his time as a driver for UK’s solar car racing team as his first success in Lexington and views the approachability of people in Lexington’s startup community as one of its biggest assets. When he’s not working, he enjoys spending time with his wife, Mollie, and their children, John Paul, Eloise, and Margot. He also enjoys cycling, gardening, and dominating the ping pong table at Awesome Inc.

Ryan Kaffenberger is Project Manager at Commerce Lexington. Through his position, Ryan loves to connect companies to the resources that they need to be successful in Kentucky and also enjoys diving into research for economic impacts of the initiatives that the Chamber is behind. Ryan sees Lexington as having an advantage because of it’s “just right” size and the lower cost of doing business as compared to bigger cities.

When Ryan is not working, he enjoys playing board games, soccer, golf, and visiting new restaurants.

Tony is Founder & CEO of GreekTrack, a membership management software for fraternities and sororities. Growing up in Lexington, Kentucky, Tony graduated from University of Kentucky in 2010 with a B.S. in Computer Science and a B.S. in Computer Engineering and then went on to get his Masters in Engineering Management at Case Western Reserve University. After graduating, Tony went on to become a Program Manager at Microsoft in Seattle, WA for the Dynamics CRM team. He decided to move back to Lexington and go all in on GreekTrack when his wife and he decided that they were ready to start a family. Tony loves all the green spaces in Lexington and enjoys rock climbing, scuba diving, and international travel (he’s visited over 40 countries!). Although he cooks most of his own meals, his favorite restaurant in Lexington is Blue Door BBQ. He doesn’t drink coffee so opt for a different meeting spot other than a coffee shop.

Tony has been involved in the startup community for many years and even pitched GreekTrack at 5 Across where he was the first ever winner. Today he serves as the facilitator for Venture Labs, a program by Awesome Inc to ignite innovation in Lexington’s businesses through entrepreneurial thinking. He also volunteers to speak at various entrepreneurship classes and events at UK and throughout Lexington.

Warren Nash is one of Lexington’s advocates for entrepreneurs. Through his position as Executive Director of the Von Allmen Center for Entrepreneurship at UK, Warren not only encourages entrepreneurship in Lexington, he actively facilitates relationships between founders and resources that can help their companies grow. He recognizes the people and community in Lexington as it’s biggest strength, and works hard to make sure it stays that way. He believes that Lexington should tout its small successes a bit more and give some recognition to those who are making those successes possible.

As one of the main reasons for the start of Global Entrepreneurship Week in Kentucky, Warren brings a passion to the Lexington community that dominos into more opportunities for all involved.
